DISCUSS HOUSING

The Los Angeles Homeless Services Authority released numbers this week showing that **overall homelessness increased** over the last year in the City by **20% to 34,189 people** and in the County by **23% to nearly 58,000 people**.

And the **Affordable Housing Linkage Fee** will be considered by the City Council's Planning and Land Use Management Committee this month.

DENSITY IS OUR DESTINY

Academics, planners, and environmentalists all agree **cities are the best opportunity for sustainable growth**. Access to mass transit, vertical living and walkable neighborhoods are characteristics of a city that will accommodate increased population. **In Los Angeles, Downtown is this model city**. It is the region's center for public transportation and is home to more high-rises than any other place in the city. **In Downtown, density is our destiny**.

Successful residential density requires

strategic partnerships and bold initiatives.
